About This Content

WOOD ELVES race comes with its own unique AI and players (Passers, Wardancers, catchers, linemen and the Treeman) but also their own star players: Dolfar Longstride and Jordell Freshbreeze!

Elves are amazingly agile and almost as fast as Skaven. Avoiding other's tackles is a pure formality for them. Especially for the Wardancers whose ability to go through opposing defenses is nearly unmatched. Elves are excellent passers and catchers. Their game could become a true nightmare for other teams not as agile and fast as they are.

The Treeman is probably the strongest player in the whole of Blood Bowl. He's gifted with an extraordinary natural strength against which very few players can compete. However, the Treeman is extremely slow and has a bad tendency of taking root in the middle of the field. If that happens, he won't be able to move...at all.

help me. horrible game. Well it's alright educational game to help child learn words but I can't recommend this because I got this from 3D Realms Anthology bundle and to me this is just filler game in that bundle.

nice free to play fun :). IF YOU FIND THIS GAME ON SALE, feel free to get it. IF IT IS NOT ON SALE, wait.

It was amusing, but with a short and unsatisfying gameplay loop and the fact that the game was over in about 2h with nothing but 100% V achieves to go for, it was not worth it.

Not a slight on the developers- they made an okay game, just not one worth the price I paid and definitely not the quality that they're hyped up to be.

Is it worth 4.99? No.

Is it worth buying during a 25% or 50% discount? Yes.. Fun fighting, puzzle, bouncing game. Right when you think you have the mechanics figured out there is a twist. A room with a new type of puzzle, a monster that looks harmless then fires ghosts at you, or its time to change my hero in order to beat a specific room, and then you die. Yay for infinite lives! But you need to start the dungeon over again. Reminds me of old school mario games where you get half way through, then die, and have to run the level over again until you unlock the secret of the level you are on. I like farming gold, but then i get stuck because he has no boost!. It's pretty neat!. Like Eve, Eve Valkyrie and Freelancer had a slightly ♥♥♥♥♥♥♥♥♥♥ baby and its full of solo developer eurojank charm. Edit: Also, this dev has added just so ♥♥♥♥♥♥♥♥♥♥ing much over the course of development and takes pride in his game.. Played this game in full 12 player lobbies where we were all on voice comms together. Mini golf with friends, as you'd expect, is a hilarious and great time. The game's price tag (\$6) is a good price, especially when more courses/modes get added. You can also join open lobbies and play golf with strangers on the internet; this is a game that should be played with other people.. **CONTROLS ARE HORRIBLE**

. Really enjoyed playing this, its very challenging at times and then equally rewarding once you solve the problem and get to the next area.
